### HOTEL DISINFECTION WITH ISOKLEAN

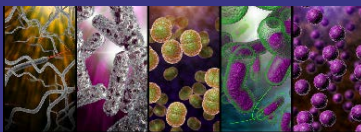

IsoKlean is a one-step, no-wipe system using an EPA registered hospital grade disinfectant. We use a broad spectrum bactericide, fungicide, and virucide.

### How safe is your hotel?

#### INSTANT EFFECTIVENESS

Our process eliminates all gram positive and gram negative bacteria, viruses, molds, and mildews. It is effective against the Human Corona Virus, Influenza Virus, and more.

Instant dry time using an electrostatic sprayer provides minimal interruption to hotel services while maintaining an exceptional level of protection for your guests and employees.

Clean what you can't see. The 360 degree treatment of IsoKlean will cover bathrooms, sinks, wall surfaces, floors, ceilings, bed covers, remote controls, tables, chairs, telephones, and desks.
